Cambridge site update

Guy Emerson

Delph-in 2016

Overview

Ann now has four minions:

- Matic Horvat

- Guy Emerson
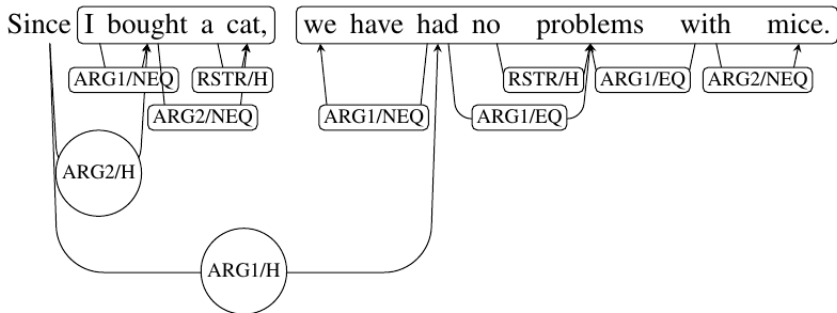

- Alex Kuhnle

- Ewa Muszyńska

Sneak Peek

- Compositionality (Ann, tomorrow)

- Pydmrs (Guy and Alex, today)

- Graph description language
  (Alex, today)

- Functional distributional semantics
  (Guy, Saturday)

Matic Horvat

- Hierarchical Statistical Semantic Translation (graph to string)

- Standalone approach, or combined with a phrase-based system

- Experimenting with translating from multiple parses of the source sentence

- Planning to extend existing work on realization in near future

Ewa Muszyńska

Ewa Muszyńska

- Chunking intended as pre-processing

- Looking for extrinsic evaluation
    - More generally: extrinsic evaluation between grammar versions

- Using multiple (most different) parses
